60'S RETRO REBORN

The range is mid-century 60's retro reborn. The team at Pebble Beach have revived it with the very latest technology available to the composite materials industry. Designed to bring a futuristic element to outdoor furniture, the flowing lines and soft edges are Feng Shui inspired.

The Pebble Beach Outdoor Range products are all lightweight and easy to move, as well as extremely weather proof. The aerodynamic styling of the range makes them less vulnerable to wind damage and the ergonomic style ensures the utmost comfort as the design allows for the seat to mould itself to your body. The style is described as mid-century 60s' Retro reborn.

LE DIGUE SINGLE PEBBLE CHAIR

ADVANCED COMPOSITE MATERIALS

Latest developments in polyester composite materials, delivers a product that can give you a lifetime of service. Improvements in modern day resin materials provide you with an everlasting UV stabilized product.

The Pebble Beach Outdoor Range is made up of the finest quality UV Resistant Polyester Composites (fibre glass). The same materials used to construct luxury, ocean going vessels. The materials are extremely refined, do not yellow and are 100% weather proof.

The colour used in the products are an impregnated gel coat, therefore ensuring the longevity of the colour. The feet are made up of a marine grade stainless steel and fibre glass and are completely rust proof.
